Abstract (en)

[origin: EP0467788A2] Apparatus for compacting waste in a mobile container (33), having a closed bottom (32) and an upper filling opening (54), the apparatus comprising a compacter (1) provided with a compacting piston (15) moved by a jack (11, 12) in an approximately horizontal direction, a support (31, 34) for receiving the container, and means for displacing the support in relation to the compacter according to a translation movement in a direction approximately parallel to that of the movement of the piston and according to a pivoting movement about a pivot (29) which is essentially horizontal and perpendicular to the translation direction. <IMAGE>
