Abstract (en)  
[origin: EP0468207A2] A system for changing equipment for a workplace, having a changing plate (10) which is held on a carrying frame structure (11) and is optionally provided with an equipment mounting, is described. The changing plate (10) can be inserted into a guide (13). To immobilize the changing plate (10) in the guide (13) of the frame structure (11), at least one locking device (12) is provided. <IMAGE>
