Abstract (en)

[origin: EP0469184A1] A rotational device for washing jets in dishwasher and dishwasher equipped with said device, having rotatable arms (1,2) with a nozzles plurality (3,3') to spray the washing fluid toward the ware to wash and having means to allow the rotation of said arms (1,2) during the washing operation, characterized in that at least a number of said washing jet nozzles are orientated/swinging in inclination direction of the respective jet to give themselves a rotational component to the arm in order to explicate the double function both of washing and of rotational propulsion. <IMAGE>
