Abstract (en)

[origin: EP0469320A2] The invention relates to a device for holding and displaying for sale essentially rectangular articles, preferably razor blade units (2) packaged in dispensers (1), having a sales unit (14) which delivers the dispensers (1) individually and has a housing, having at least one bottom (15) and a front side (14.1), and at least one removal device. In order to improve the holding and display of the dispensers, it is proposed according to the invention that the removal device be constructed as a slot-type opening (16) which is arranged in the front side (14.1) of the sales unit (14) in the vicinity of the bottom (15), that the housing have two side walls (14.2) which have recesses (14.5) in the vicinity of the bottom (15), which recesses correspond to the opening (16), and that the dispensers (1) be arranged in the sales unit (14) in at least one row one above the other. <IMAGE>
