Abstract (en)
[origin: EP0473786A1] A substrate for an ink-jet head comprising: a pair of first distribution electrode layers disposed on a substrate through first electrode adhesion layers; a pair of second distribution electrode layers disposed on said pair of first distribution electrode layers each correspondingly to a relative one through second electrode adhesion layers; and heat generating resistor layers included in said first or second electrode adhesion layers and generating heat on impression of voltage through a pair of said first and second distribution electrode layers.
