Abstract (en)

In a balcony cover-up system with plane facade elements and oriel projections for facade renovation of existing multi-storey buildings the facade elements and the oriel projections in their entirety are designed as frame structures of aluminium hollow profiles, whereby at least one side face of the hollow profiles serving as frame elements for glazing and panelling portions (26, 33, 62) is provided with a first type of longitudinal rail (24) for receiving and retaining connecting components in the form of installations strips (28) for fixed glass panes and panels, guide profiles and mounting strips for sliding glass panes, supporting profiles (46, 51, 60) for oriel cover and bottom plates and cappings. <IMAGE>
