Abstract (en)
[origin: WO9015856A1] The detergent additive granulate is a cogranulate containing at least one enzyme and at least one photobleaching agent. If a detergent, a component of which is such detergent additive granulate, is used for laundering, the photobleaching agent will not tend to adhere selectively to the laundry during the initial washing process.

Abstract (fr)
Le granulé d'addition au détergent est un cogranulé comprenant au moins une enzyme et au moins un agent de photoblanchissage. Si un détergent, dont un constituant est un tel granulé d'addition au détergent, est utilisé pour le blanchissage, l'agent de photoblanchissage n'aura pas tendance à adhérer sélectivement à la lessive pendant la phase de lavage initiale.
