Abstract (en)
[origin: WO9015548A1] A shirt provided with a means for preventing the deformation of collar edges, having such a constitution that, on each of the reverse sides of collar edges, a means (6) for inserting a deformation preventive member (2) is provided with an opening (6') which holds the member (2) inside the collar edge and exposes the tip of the member (2) to the outside; and a means (4) for retaining the exposed tip (2-2) of the member (2) is provided on the front body in a position corresponding to the opening (6'), wherein said member (2) is inserted into said means (6) with a part of the tip (2-2) being exposed to the outside from said opening (6') and said tip part (2-2) exposed from said opening (6') is retained by said means (4) when the shirt is put on the human body.
