Abstract (en)  
This construction is characterised in that it rests on the ground with neither foundations nor vertical connection means and in that it is constituted by a plurality of levels (2) which are superposed without any vertical connection means. Application to the construction industry.

Abstract (fr)  
L'invention concerne une construction modulaire antisismique. Cette construction est caractérisée par le fait qu'elle repose sur le sol sans fondations ni liaison verticale, et qu'elle est constituée par une pluralité de niveaux (2) qui sont superposés sans aucune liaison verticale. Application à la construction.
