Abstract (en)

[origin: EP0481250A1] The invention relates to a cartridge (2), shaped in the form of a plastic bag, for fitting in dispensers (1), which can be emptied by displacing the cartridge, for pasty substances (M). To achieve a solution which is advantageous, in particular, in respect of the shape, it is proposed that a weld (28) at the bottom has at least two fingers (29) which are arranged spaced apart, are located on the side of the outer wall, are filled with the substance and fold into the spacing (30) under internal pressure. <IMAGE>
