Abstract (en)

A supporting bar for a shelf is described which, possibly with the exception of its anchoring means, consists completely of compressed cardboard, possibly with folded material. Compared to the previously used supporting bars for shelves made of plastic or wood, the supporting bar for a shelf can be disposed of, together with the other constituents of the shelf of folded material by the principle of mono-disposal, all the requirements placed on it in practice nevertheless being met by the V-shaped or L-shaped profile without weakening lines, in particular in respect of load-bearing capacity.

Abstract (de)

Beschrieben wird eine Regalstange, die, ggf. mit Ausnahme ihrer Verankerungsmittel, vollständig aus Preßpappe besteht, ggf. mit Faltmaterial. Verglichen mit den bisher verwendeten Regalstangen aus Kunststoff oder Holz kann die Regalstange mitsamt den anderen Bestandteilen des Regals aus Faltmaterial nach dem Prinzip der Mono-Entsorgung entsorgt werden, wobei sie durch das V- oder L-Profil ohne Schwächungslinien dennoch allen in der Praxis an sie gestellten Anforderungen genügt, insbesondere in Bezug auf Belastbarkeit.
