Abstract (en)

Gas cock with modular safety device designed for gas stoves with cooking top of limited height and comprising a hollow tubular body (10) having a square form and consisting of two arms (12,13) communicating together and arranged at a mutual angle of 90 DEG . One (13) of said arms contains the opening and closing control device while the other (12) arm contains the operating device (24) and the magnetic safety valve (22). The hole (15') for passage of the gas is placed between the operating device (24) and the magnetic safety valve (22). <IMAGE>
