Abstract (en)
[origin: EP0488813A2] A label assembly (10) which includes a support sheet (11) of paper material to which there is fixed via an adhesive (14) an information receiving sheet (15) of heat stable plastics material. The information receiving sheet (15) and support sheet (11) are perforated so as to be divided into discrete label portions (16). The perforations extend through both sheets (11,15) and number between 50 and 100 perforations per inch. <IMAGE>
