Abstract (en)

[origin: EP0491123A1] In this conductor connection for cap rails, a busbar piece (1) which can be placed on the cap rail (7, 8) and a mating lug (2) which moves by means of a clamping screw (3) with respect thereto and has hook regions (16) engaging under the cap rail limbs (7) are in each case constructed to have a single limb, are arranged parallel side-by-side in the region above the cap rail and are guided with respect to one another. Such a conductor connection has a low material cost and is of physically low construction. <IMAGE>
