Abstract (en)

[origin: EP0492819A1] A plastic link toy comprising a plurality of geometrically shaped elements (11, 15, 16) having a series of equally spaced slots (12, 15A, 17), formed by a series of equally spaced protrusions, having a thickness equal to the width of the slots; said elements being mounted on a solid base; so that when two of said slotted elements are placed next to each other having their respective slots facing in opposite directions, they can be linked to one another by having one set of protrusions penetrate the opposite slot cavities; and said linked elements can be swivelled around the axis (21), formed by said linked elements. <IMAGE>
