Abstract (en)

Process for manufacturing a three-dimensional woven multi-warp textile structure of substantial thickness, characterised in that various simple or fundamental foundation weaves B known per se are juxtaposed on multiple warps and wefts, in such a way that their combination produces a general weave G composed of weave elements E which are deduced from one another on the basis of at least one primary element. <IMAGE>

Abstract (fr)

Procédé de réalisation d'une structure textile multichaînes tissée en trois dimensions et d'épaisseur substantielles caractérisé en ce que l'on juxtapose différentes armures de base B, simples ou fondamentales connues en soi sur des chaînes et trames multiples, de telle sorte que leur combinaison donne une armure générale G composée d'éléments d'armure E qui se déduisent les uns des autres à partir au moins d'un élément premier. <IMAGE>
