Abstract (en)

[origin: WO9105054A1] A light-activatable plant promoter is provided. This promoter was identified as a promoter sequence for the fructose-1,6-bisphosphatase gene. The promoter can be used to control the expression of genes in photosynthetic tissues.

Abstract (fr)

On prévoit un promoteur de plantes à activation par la lumière. Ce promoteur a été identifié comme séquence de promotion du gène de fructose-1,6-bisphosphatase. Le promoteur peut être utilisé pour régler l'expression des gènes dans les tissus photosynthétiques.
