Abstract (en)  
[origin: WO9106022A1] A lens mount (1) for a miniature optical lens (6) comprises a frame (2, 3) capable of plastic deformation in and parallel to its major plane (U-D & L-R). Movement out of the plane (B-F) may also be provided for. This arrangement allows minor re-adjustments to optical lens alignment to be performed after assembly.

Abstract (fr)  
Monture (1) pour lentille optique miniature (6). Elle se compose d'un châssis (2, 3) capable de déformation plastique dans et parallèlement à son plan principal (U-D & L-R). L'on peut aussi obtenir des mouvements hors de ce plan (B-F). Grâce à ce système, on peut parfaire le réglage de l'alignement de la lentille optique une fois le montage effectué.
