Abstract (en)

The invention relates to a duct/electrical-socket combination which can be installed in a groove-shaped electrical duct (10) and comprises at least one duct/electrical socket (80) or the like. The duct/electrical-socket combination is electrically protected against being touched and can thus be installed in the electrical duct (10) without separate protection boxes. <IMAGE>

Abstract (de)

Die Erfindung betrifft eine in einem rinnenförmigen Elektrokanal (10) installierbare Kanal-Elektrodosenkombination, die mindestens eine Kanal-Elektrodose (80) oder d.gl. umfaßt. Die Kanal-Elektrodosenkombination ist elektrisch berührungsgeschützt und kann somit ohne getrennte Schutzdosen im Elektrokanal (10) installiert werden. <IMAGE>
