Abstract (en)  
[origin: EP0498760A1] Round or oval packaging, containing a bottom part with one or more compartments and a lid which is mounted at the edge of the compartment or compartments and can be peeled off, wherein the lid is divided into lid segments, wherein each lid segment covers a compartment and each lid segment is sealed onto the bottom part following the circumference of the compartment, and each lid segment contains a tearing aid, and each lid segment can be completely or partially peeled off or pulled off via the sealing seam following the circumference of the compartment. The package can be sterilised and the sides of the bottom part and of the lid directed onto the inside of the container have a polyolefin or polyester coating. <IMAGE>
