Abstract (en)
[origin: EP0500479A1] Plastic ski boot comprising: . a deformable shell (1), having two lips (4,5) which overlap in order to form flaps, arranged on the top of the foot, . a collar piece (20), articulated (21) on the shell (1), having, on the front, two tabs (22,23) forming flaps arranged on the front of the lower leg, . closure members (10-15; 26-28), intended to cause the flaps (4,5; 22,23) to slide on one another and thereby to ensure gripping of the foot in the shell (1) and of the lower leg by the collar piece (20), characterised in that the flap (4) of the shell (1) corresponding to the outer face of the foot overlaps the flap (5) of the inner face of the foot, whilst the flap (23) corresponding to the inner face of the collar piece (20) overlaps the flap (22) of the outer face of this collar piece (20). <IMAGE>
