Abstract (en)

[origin: WO9107534A1] The present invention relates to a fibrous composition comprising a thermally heat shrinkable fibre structure having in at least a proportion of the structure a substantially homogeneous content of a conducting material sufficient to impart limited conducting properties to the composition.

Abstract (fr)

Une composition fibreuse comprend une structure fibreuse thermorétractable, au moins une partie de la structure ayant une teneur essentiellement homogène en matériau conducteur suffisante pour donner à la composition une conductivité limitée.
