Abstract (en)

A tile trim for edging tiles on a wall surface comprising: an elongate outer, cover part (24); and an elongate inner, fixable part (1), fixed in use at an edge of the tiles on the wall surface; the inner part having two flanges (2,3) set at an angle to each other and engagement means (19,20) arranged in the angle between the flanges; the outer part having a trim web (26) with a front, trim surface, a rear surface and complementary engagement means (25) extending from the rear surface; the engagement means and the complementary engagement means being adapted for engagement with each other to hold the outer part with respect to the wall surface when the inner part is fixed with respect to the wall surface. <IMAGE>
