Abstract (en)

[origin: WO9207372A1] A protective jacket, in particular for remote control units for televisions and video recorders, and other instruments such as telephones, calculators and alarm clocks, which jacket has an elastically deformable structure due to the presence of alternated thick antishock sections (1a) and elastically extendable thin sections (1b) of material; said jacket being able to house instruments of different shapes and dimensions thanks to its elastic capability.
