Abstract (en)
[origin: EP0505806A1] A cooking hob (30) is described, of the type destined to be fitted in an aperture (36) existing in the superior surface of a cabinet (33), being of a standard dimension with respect to said cooking hob, for kitchen units. The principle characteristics of the described cooking hob is that its overall width (L) is superior to the width of said cabinet of standard dimensions (33) and that means are provided for allowing the positioning of the cooking hob (30) in a number of various positions, according to the installation requirements relative to the type of cabinet that is installed adjacent to the cabinet of standard dimensions (33). <IMAGE>
