Abstract (en)
[origin: EP0508033A1] General Protector has been projected to protect any brittle object such as portable electronic equipment of various dimensions from any possible falls. These are for example: pocket electronic calculators, remote controls, walkie talkies, cellular telephones, measurements testers, people finders etc. General Protector has been produced in a synthetic elastic material that, thanks to its technical features can be adapted to various shapes and sizes. Its shape is rectangular and its dimensions in its natural shape are: 140 mm. in lenght, 68 mm. in aplitude, 27,5 mm. in thickness. General Protector is able to contain an object whose dimensions are three times greater than its awn original size.
