Abstract (en)

[origin: WO9109652A1] A racket for ball games comprising a separable handle (22) and head frame (14). The head frame (14) is made by moulding a plastic material and the handle (22) is made by injection moulding a plastic material. Said racket comprises a hinge (32) for folding the handle (22) against the head frame (14) and devices (50, 48, 52, 44, 46) for rigidly mounting the handle (22) as an extension of the head frame (14).

Abstract (fr)

Raquette de jeux de balles comportant un manche (22) et un cadre (14) de tamis dissociables, le cadre (14) de tamis étant réalisé par moulage d'une matière plastique et le manche (22) par injection d'une matière plastique, ladite raquette comportant une articulation (32) permettant de replier le manche (22) le long du cadre de tamis (14) et des moyens (50, 48, 52, 44, 46) permettant l'assemblage rigide du manche (22) dans le prolongement du cadre de tamis (14).
