Abstract (en)

There is disclosed a Jacquard fabric, for furnishings, of the type including a plurality of warp bodies and weft yarns, which is made by a simple weaving process. This furnishings fabric provides very attractive chromatic effects, which are obtained by properly weaving two weft yarns (2,3) only with five warp yarns (4-8) or bodies. More specifically, the fabric is made starting from respectively bottom (2) and operating (3) weft yarns, therewith there are woven two bottom warp bodies (4,5) and three warp bodies (6-8) having different colours, the weft yarns advantageously comprising an antifire material. <IMAGE>
