Abstract (en)
[origin: WO9113295A1] A ventilating device with air inlet and air outlet devices for shelters, in particular for mobile shelters (5, 5'), containing installations (33, 33'), which produce waste heat, has a flap control system for controlling the internal temperature of the shelter (5, 5') by means of outside air; the air inlet device and air outlet device are arranged on the same assembly wall (103) of the shelter (5, 5'); at least one air inlet channel (2, 2') leading from the assembly wall (103) into the interior of the shelter (5, 5') is arranged inside the shelter (5, 5'); the air inlet channel (2) has rigidly set induction slit outlets (132) for the incoming air facing the installations (33).
