Abstract (en)

[origin: WO9209554A1] A process for the preparation of an alkenyl derivative of a Bronsted acid by the transvinylation reaction of an alkenyl derivative of a first Bronsted acid with a second Bronsted acid includes azeotropic distillation of the transvinylation reaction mixture for the separation and recovery as a product the alkenyl derivative of the second Bronsted acid.

Abstract (fr)

Un procédé de préparation d'un dérivé alcényle d'un acide Bronsted, au moyen de la réaction de transvinylation d'un dérivé alcényle d'un premier acide Bronsted avec un second acide Bronsted, comprend la distillation azéotropique du mélange de réaction de transvinylation par l'intermédiaire de laquelle on effectue la séparation et la récupération, sous forme d'un produit, du dérivé alcényle du second acide Bronsted.
