Abstract (en)  
[origin: EP0517610A1] The subject of the invention is a cardboard packaging box, particularly for packaged processed-cheese portions, comprising a lower part (1) and an upper part (2) forming the lid, the said lower and upper parts each comprising a base (3) and a lateral part (4a, 4b), characterised in that it comprises, over virtually the entire width of the two lateral parts (4a, 4b), a stratified strip (5) which is bonded onto these lateral parts and which extends over the entire periphery of the box, the said stratified strip (5) comprising a lower strip (6) made from paper consisting of two separable parts each adhering respectively to the lateral parts of the lid (2) and of the lower part (1) and comprising, on its upper face, the decoration of the box, and an upper strip (16) equipped with a gripping tab (18) adhering detachably to the decoration of the box, the said upper strip forming a peelable strip forming the opening member so that, when the box is opened, the decoration of the box remains intact.
