Abstract (en)
[origin: JPH05247732A] PURPOSE: To provide a wool card applicable in the field of textile industry, particularly useful for wool and continuous filament yarns. CONSTITUTION: This wool card is equipped with at least three Morel rollers (1), but is not provided with an intermediate comb, and in which the tangential velocities of feeder rollers (2) and a large drum (3) are equal and the reduction in speed of a fiber web between the large drum (3) and the following Morel roller (1) is relatively low.

Abstract (fr)
La présente invention concerne une cardes dite "laine".Carde caractérisée en ce qu'elle est équipée d'au moins trois cylindres Morel (1), en ce qu'elle ne présente pas de peigneur intermédiaire et en ce que les vitesses tangentielles des cylindres alimentaires (2) et du grand tambour sont égales, la réduction de vitesse de la nappe de fibres entre le grand tambour (3) et le cylindre Morel (1) suivant étant relativement faible.L'invention est plus particulièrement applicable dans le domaine de l'industrie textile.
