Abstract (en)

The invention relates to a batching and compacting machine for spinach or other leafed vegetables, which permits of obtaining perfectly measured portions, which portions are compacted in cubic shapes, without maltreating the leaves and so protecting the quality of the product. The machine comprises two motorised conveyor belts (1) which accompany the product to be compacted along a vertical channel (2), towards a batching device (4) equipped with batching chambers (5). <IMAGE>
