Abstract (en)  
[origin: EP0519257A2] A multiple packaging for a plurality of cuboid packs which are surrounded by an outer wrapping of cardboard, paper or plastic film, especially a stock of cigarettes, is to be so designed that the individual cigarette packs can be marked simply on one outer side each without opening the outer wrapping. To this end, the outer wrapping has recesses in the region of the outer sides of each of the packs. In this arrangement, adjacent recesses (17) are separated from each other by narrow webs (19) of the outer wrapping (14). <IMAGE>
