Abstract (en)

Phosphate-free gel-like dishwasher detergent compositions comprising at least one low molecular weight polyacrylate, at least one polymeric thickener, a chlorine bleach compound in an amount to provide 0.2 - 4% available chlorine and water, which is bound to at least one of the other ingredients in the composition. The composition may also contain one or more builder salts, alkali-metal silicate, alkali metal hydroxide, organic detergent, foam depressant and a long chain fatty acid.
