Abstract (en)

The wrist-watch case includes a winding square (12) which receives a movement (2) surmounted by a dial (3). A glass (5) and a back (6) are fixed to the winding square, as are first (7) and second (8) strands of a strap. The back completely covers the underside of the winding square and includes first (9) and second (10) wings made in one piece with it. These wings completely cover the outer sides (11) presented by the winding square and which are situated between the strands of the strap. The back is made preferably of ceramic. <IMAGE>
