Abstract (en)

[origin: WO9114428A1] The invention relates to a means of reducing or maintaining intraocular pressure, and, more particularly, to a method and composition for reducing or maintaining intraocular pressure involving the administration of a composition containing 5-trans prostaglandin F2 alpha in a pharmaceutically acceptable carrier.

Abstract (fr)

Cette invention concerne un moyen de réduire ou de maintenir la pression intraoculaire, et, plus particulièrement, une méthode et une composition pour réduire ou maintenir la pression intraoculaire consistant à administrer une composition contenant du 5-trans prostaglandine F2alpha dans un support pharmaceutiquement acceptable.
