Abstract (en)
[origin: WO9212765A1] A climbing wall comprises means (9) on a support structure (2) for forming a cold dissipating faade (10), retaining means (24) extending into this wall of ice, and spray means (28) to supply water to the front face of the cold dissipating means and/or against the wall of ice formed.

Abstract (fr)
Mur d'escalade comprenant, montés sur une structure support (2), des moyens (9) pour former une façade (10) de dissipation de froid, des moyens de maintien (24) qui s'étendent dans ce mur de glace, et des moyens d'arrosage (28) en vue d'amener de l'eau en face frontale des moyens de dissipation de froid et/ou contre le mur de glace formé.
