Abstract (en)
[origin: WO9115718A1] In a process, installation and device for enriching ventilation or air-conditioning air with aromatic substances, the enrichment is homogenised in that a mixture of preferably water and aromatic substance is produced and stocked in a container (11) having a free evaporation surface for the mixture, the intake air current of the ventilation or air-conditioning air or part thereof is taken over the free evaporation area and then fed into the air-conditioning system.
