Abstract (en)

[origin: EP0523706A1] This invention is related to a protection bag made of polyethylene, laminated polypropylene woven material or any other suitable material for the protection of the bags inserted inside thereof used for the handling, storing and transporting of bulk materials against various environment conditions wherein the opening of the protection bag is extended to one side and a slit is provided on the bag through which a lifting hook or any other handling means may be inserted. <IMAGE>
