Abstract (en)

[origin: EP0524516A1] A '3-piece' truncated cone shaped container (1) is described, which is made of welded sheet metal and has absolutely smooth internal surface, so that the container can be easily cleaned. The container is easy to stack, and has a ring shaped upper lip (6) that is concave (7) in the centre. A method for manufacturing above container is also described. <IMAGE>
