Abstract (en)

Method for manufacturing, by means of co-laminating, bars of a steel forming a medium or high alloy with a mild steel. <??>It comprises bars (1) consisting of alloyed steels obtained by means of powder metallurgy and whose compacting gangue (matrix) (5) has been conserved. <IMAGE>

Abstract (fr)

Procédé de fabrication par colaminage de barres d'un acier moyennement ou fortement allié avec un acier doux. Il comporte des mises (1) constituées par des aciers alliés obtenus par la métallurgie des poudres et dont on a conservé la gangue (5) de compactage. <IMAGE>
