Abstract (en)

[origin: WO9116066A1] A composition comprising a biologically active amphiphilic ion channel-forming peptide or ion channel forming protein and a toxic cation, such as a silver cation. Such compositions may be employed as pharmaceuticals, particularly for the treatment and prevention of eye infections.

Abstract (fr)

Composition comprenant un peptide formant des canaux d'ions amphiphiliques ou une protéine formant des canaux d'ions biologiquement actifs ainsi qu'un cation toxique, tel qu'un cation d'argent. On peut employer lesdites compositions en tant qu'agents pharmaceutiques, notamment dans le traitement et la prévention d'infections oculaires.
