Abstract (en)
[origin: EP0530789A1] The invention relates to a metering dispenser (1) for liquid soap, hair shampoo or similar liquids, having an exchangeable refilling unit which is formed by a liquid supply container (5) and a removal device (25) connected thereto and is held releasably in a holder (2), the liquid being removable from the supply container (5) via an automatically closing outlet valve (26) of the removal device (25). In order, in particular, to meet high hygienic requirements as well, provision is made in the metering dispenser (1) according to the invention for the supply container (5) to be constructed, at least in a partial region of its container wall, to be resilient, exposed and pressurisable, and for the outlet valve (26) to be openable by pressurisation of the container wall of the supply container (5). <IMAGE>
