Abstract (en)

[origin: EP0535383A2] A container is provided, having a lower part and an annular lid part, connected permanently thereto, and a press-in lid which can be inserted releasably in the opening of said annular lid part, in which the press-in lid is additionally held directly on the lower part of the container by a securing ring which grips over the edge of the press-in lid as well as the edge of the lower part. <IMAGE>
