Abstract (en)

[origin: WO9113542A1] The present invention relates to a novel method whereby viral resistance is conveyed to a plant host by incorporating into the host a fragment of the viral genome associated with the replicase portion of the genome.

Abstract (fr)

Nouveau procédé consistant à transmettre une résistance virale à une cellule hôte de plantes par incorporation dans l'hôte d'un fragment du génome viral associé à la partie de répliqueuse du génome.
