Abstract (en)

[origin: WO9200176A1] In a method for the manufacture of a thermoplastic product, a sheet of a thermoplastic material (3) is heated and transferred to a mould (1 and 2) in which it is formed by pressing. The mould is a model backed against a planar mould table (6) via a backing material (1).

Abstract (fr)

Selon une méthode de fabrication d'articles thermoplastiques, on fait chauffer une feuille de matériau thermoplastique (3) avant son transfert dans un moule (1 et 2) destiné à sa mise en forme par pressage. Le moule comporte un modèle plaqué contre une table de moulage plane (6) par l'intermédiaire d'un matériau de support (1).
