Abstract (en)

Apparatus for cleaning the outer walls of buildings, equipped with means for cleaning and washing the walls. Said apparatus is suspended from a carriage (3) which is provided with means capable of causing both a displacement of said carriage in a vertical plane along the walls to be cleaned, and a translation thereof in a horizontal plane along the perimeter of the building. Said apparatus (5) is provided with screw-and/or turbine propulsion means (8) capable of keeping it constantly adhering against the surface to be cleaned, the airflow generated by said means (8) being used to dry the washed surfaces. <IMAGE>
