Abstract (en)
A mobile crane is described which has a box-like support (1) which serves as a crane support and vehicle frame, on which are suspended drivable wheels (5, 6) which can be steered by means of McPherson strut units (19) and for the relief of which supporting legs (4) are available. The mobile crane has furthermore a drivers cab (15) which can be rotated concomitantly with its telescopic crane mast (11) and is additionally adjustable relative to the axis of rotation (8a) of the telescopic crane mast. Post-like holding elements (21) are provided between each McPherson strut unit (19) and the support (1) on the latter and projecting above it, the McPherson strut unit (19) being fastened to the upper end section (21a) of the said holding elements (21). The holding elements (21) of each pair of wheels (5, 6) are furthermore rigidly connected to one another above the support (1) by means of reinforcing elements (22). <IMAGE>

Abstract (de)
Es wird ein Fahrzeugkran mit einem als Kranträger und Fahrzeugrahmen dienenden kastenförmigen Träger (1) beschrieben, an dem über Federbeine (19) lenkbare und antreibbare Räder (5, 6) aufgehängt und zu deren Entlastung Stützbeine (4) vorhanden sind. Der Fahrzeugkran weist weiterhin eine mit seinem Teleskop-Kranmast (11) mitdrehbare Fahrerkabine (15) auf, die zusätzlich relativ zur Drehachse (8a) des Teleskop-Kranmastes verstellbar ist. Zwischen jedem Federbein (19) und dem Träger (1) sind an diesem, über ihn nach oben hinausragend, pfostenartige Halteelemente (21) vorgesehen, an deren oberem Endabschnitt (21a) die Federbeine (19) befestigt sind. Die Halteelemente (21) jedes Radpaares (5, 6) sind darüber hinaus oberhalb des Trägers (1) über Aussteifungselemente (22) starr miteinander verbunden. <IMAGE>
