Abstract (en)
[origin: EP0545146A1] In the method for the fashioned knitting of intarsia Jacquard articles on a two-bed flat knitting machine, floating intarsia threads are avoided on the rear side of the fashioned fabric, even in intarsia regions of changing width, in that a thread-guide adjustment takes place at points of change in direction of the intarsia regions and the intarsia threads floated thereby are thereafter tied into the fabric. <IMAGE>
